Eileen sent the compilation team an email on what she thought on the results from the numbers. She thought we should have only gone to one decimal place and should not have counted the No Opinion in the results. It did not change the results by very much.

Discussed what part of the survey to send to UVA.

Discussed what LSA should do with the information from the survey. Come up with possible recommendations.

LSA Executive Board is to go over survey and come up with any themes that they see in each section and bring what they have found to the next LSA Executive Board meeting on Jan. 18th. We will then go over what everyone has done and try to come up with recommendations.
